The Kane and Abel Universe

For many readers, *Kane and Abel* remains Jeffrey Archer's defining achievement. This trilogy (often grouped with a fourth related novel) explores the lifelong rivalry between William Lowell Kane, a Boston banker, and Abel Rosnovski, a Polish immigrant who builds a hotel empire. The **chronological order of Jeffrey Archer novels** in this universe is straightforward, but there is an important nuance regarding the prequel.

Kane and Abel Series Order

1. **Kane and Abel** (1979) – The flagship novel follows both men from their births in the early 1900s through decades of conflict, ambition, and revenge. It is widely considered one of the greatest novels of the 20th century.
2. **The Prodigal Daughter** (1982) – This sequel focuses on Florentyna Rosnovski, Abel's daughter, as she pursues a political career and a romance with Richard Kane, the son of her father's nemesis. The novel spans from the 1940s to the 1980s.
3. **Shall We Tell the President?** (1977) – This novel was actually written before *Kane and Abel*, but it is set after the events of *The Prodigal Daughter*. It follows Florentyna as President of the United States facing an assassination plot. Read it last for continuity.
4. **This Was a Man** (2016) – While technically part of the Clifton Chronicles, this novel features crossover characters and ties the two universes together. It is often included in discussions of the Kane and Abel world because it brings closure to certain plotlines.
